

Accessing eLearning Courses and Programs

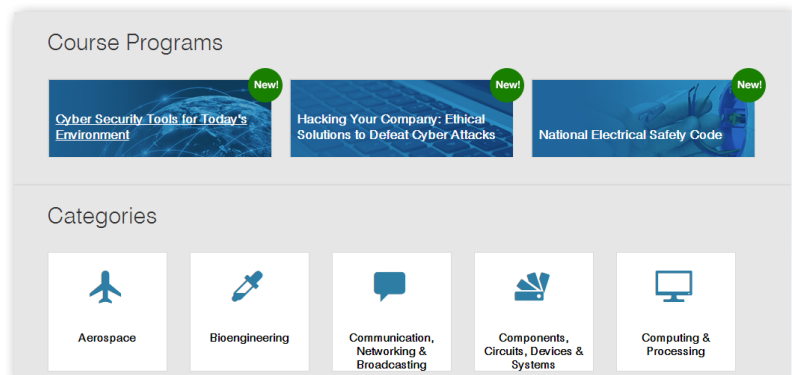

Finding a course or program

- » Go to www.ieee.org/ieeexplore
- » Log in (not all subscription options include access to IEEE Xplore Courses)
- » Under the Browse menu in the upper left hand corner, choose Courses
- » Select either a tile for the Course Programs, highlighted center of the page, or scroll further down and select a tile with the topic of your choosing

Taking a course

- » Click on the course of interest
- » Sign in to your personal IEEE account to get credit—you can create an account here if you do not already have one

Get a Certificate once completed

- » Take the quiz at the end of the course to earn CEUs and PDHs
- » After passing the quiz, click Get Course Certificate below the video to request certification and credits

Accessing eLearning Courses and Programs

Course content

- » Over 450 course titles
- » 14 categories covering over 50 topics
- » Introductory, Intermediate, and Advanced levels
- » Current material including, Ethical Hacking and Internet of Things
- » Created by experts from around the world

eLearning Library Course features

- » Relevant topics across the spectrum of technical professionals
- » Perfect for self-study or group training
- » Engaging interactive exercises
- » Immediate feedback to reinforce lessons
- » Flexible design to allow progress through skills in any order, and any skill level

8 Courses Ethical Hacking All Levels Any

Intermediate
Denial of Service Attacks
A Denial of Service (DoS) attack is an old, but effective type of cyber attack. In this course, we explore the motivations, pattern and the many forms they can take against a target, including network level and application layer attacks. [View More](#)

CEUs: 0.3 PDHs: 3 1 Hour

Intermediate
Ethical Hacking: Enumeration
This course reviews the concept of enumeration. Enumeration is the process of identifying resources on a network, and extracting information from a system. Techniques for retrieving information such as usernames, sharenames, network information and o... [View More](#)
